## Content of the sets

Set 1

Set 2

**1. 09058-33 XR 4.0 X-ray Specimen set alloys for fluorescence, set of 5**

This set is used in the experiment P2544601 "Qualitative X-ray fluorescence analysis of alloyed materials"

- 1 Steel
- 2 Brass
- 3 Magnet
- 4 Superconductor
- 5 Magnetic foil

**2. 09057-34 X-ray Specimen set metals for fluorescence, set of 4**

This set is used in the experiments P2544501 „Qualitative X-ray fluorescence spectroscopy of metals“ and P2545201 „X-ray fluorescence spectroscopy – layer thickness determination“.

- 6 Nickel electrode
- 7 Cu/Zn/Pb-alloy
- 8 Alloy Cu55/Ni45
- 8 Copper foil
